TO WHOM IT MAY CONCERN

Re: "A Woman's Place: How Women's Art-Making Shaped Victoria"

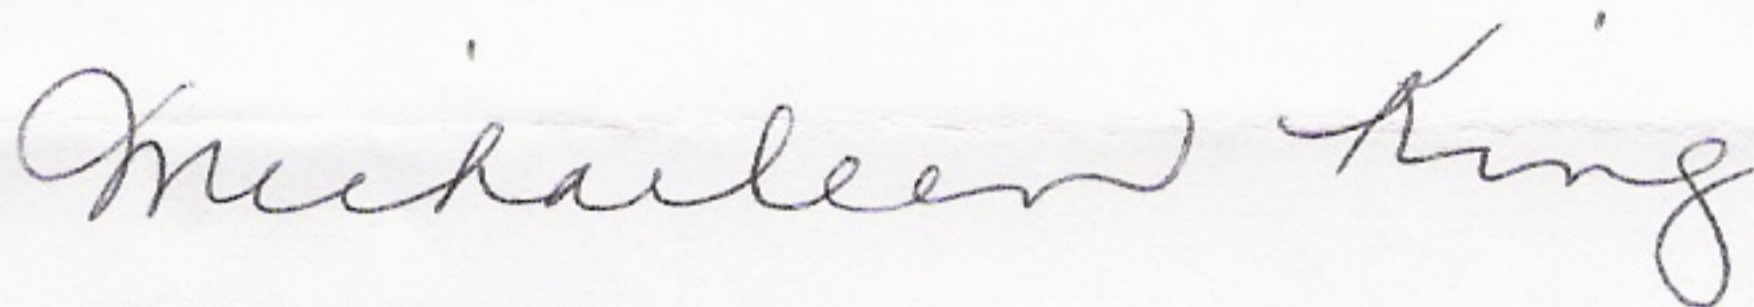

This letter will serve as a notice of our support for your application for funding to create a virtual exhibition celebrating the womanly arts, specifically as it relates to the Sisters of Saint Ann and their contribution to the education of woman since 1858.

The Sisters of Saint Ann archives are rich with artifacts, testimonials, correspondence and photographs documenting the fine arts from their arrival in Victoria in 1858, to 1973 when the Academy closed. As well, this proposed website will certainly add to and enhance the teaching of British Columbia history, and is most timely in anticipating the upcoming 150th anniversary of British Columbia in 2008, an anniversary shared by the Sisters of Saint Ann.

The SSA archives are prepared to contribute 35 hours of staff time at \$29.00 per hour, in kind, toward this most worthwhile project. The Collection comprises approximately 60 cm of textual records, exclusive of artifacts and educational materials.

Thank you for your consideration. We are pleased to serve as a partner in creating this compelling project.

With warm regards and best wishes,

Michaela King
Archivist
